

Features

- Exceptional acoustic properties
- Non flammable formulation
- Water based, non-toxic, no VOC
- Adheres to gypsum, wood, concrete, glass, metal
- Standard finishing with mud or paint
- Easy to apply
- Soap and water cleanup
- Flexible, damping sealant will not harden or crack
- Long shelf life

Acoustical Caulk seals cracks, gaps, and penetration between walls, ceilings, and floors. It is designed to enhance and maintain the Sound Transmission Class (STC) of an assembly. Seal perimeter edges, seams, and gaps. Apply between gypsum seams, wall-to-wall, wall-to-floor, wall-to-ceiling and wall-to-floor surfaces.

Acoustical Caulk Sealant performance is illustrated in the graph below. Notice the drastic noise reduction improvement offered by the Acoustical Caulk Sealant.

Specifications

Appearance: Brown Creamy Paste

Solids: 67-70% by weight

PH: 7-7.5

Flammability: Non-flammable

VOC Content: <5 gr/liter

Cure Time: 2-7 days

Application 40 °F min

Temperature:

Storage: 40 to 100 °F

Cleanup: Soap and water

Shelf Life: 1 year
