

## Features

- up to 32 STC
- High Tear and Tensile Strength
- Safe, non-toxic materials
- Standard or reinforced

## Applications

- Construction Sites
- Enclosures
- Fences
- Tennis Courts
- Pickleball Courts

## Description

Reinforced Barrier MLV is manufactured with high-strength polyester scrim fabric to increase strength and durability. Reinforced MLV Barrier is available one pound (1#) and two pound (2#) per square foot density with an industry-leading noise reduction STC rating.

Reinforced MLV is mounted on structures around construction sites, tennis courts, pickleball courts, and residential fences as temporary noise barriers or as permanent barriers in HVAC or other equipment enclosures.

Reinforced MLV Barrier in 1# and 2# are available in rolls measuring 4.5' x 30'

Thickness: MLV 1# nominal 1/8", MLV 2# nominal 1/4"

## Options

- MLV 1#
- MLV 2#

## Performance

	Acoustic Transmission Loss (dB)							STC
	Frequency (Hz)	125	250	500	1000	2000	4000	
MLV 1# Reinforced		17	17	23	28	33	37	27
MLV 2# Reinforced		22	23	28	33	38	43	32
